Flexibility

Most people, particularly when starting a self drive itinerary from a capital city, will spend the first few days exploring the city and don't require the vehicle immediately from the airport, as such an option to pick-up the vehicle in the city is available.

Self Drive itineraries include a comprehensive Co-Pilot kit with detailed descriptions and directions. Each itinerary can be modified to include additional stops along the way, extra nights and additional car hire days. We can modify a self drive itinerary of any duration, including a Co-Pilot kit to match the new itinerary (extra charge). An option is also available without car hire included. Ask us for details.

Exploring Australia and New Zealand's cities is easy with our selection of great city packages. We've put together a range of packages that feature some of our favourite experiences, created exclusively for our customers. These packages offer great value for money and are a perfect addition before or after your self drive journey.

Flexi Self Drives

Whilst we offer a large range of itineraries throughout Australia and New Zealand, sometimes these may not be quite what you're looking for. We now offer the option to tailor make your own itinerary and include a personalised Co-Pilot kit. Simply create your itinerary and we'll craft a Co-Pilot kit tailor made to your request, available in English, German, French or Italian (extra charge). Ask us for details.

Licence Requirements

If your licence isn't in English, you must obtain an international driver permit. You must also carry your original driver licence with you when driving in Australia and New Zealand on an international driving permit.

Day Tours

Throughout this brochure you'll find 'must do' tours and attractions for each destination that can be added to your self drive journey or city package. This is a fantastic way to get the most out of your holiday, take advantage of our selection of Open Dated Tours and buy now, book later.
